Gaurav Joshi

Technical Lead / Associate Project Manager (Java Architecture & AI Workflows)
+91-9719540570 | gauravjoshigj321@gmail.com | linkedin.com/in/gaurav01joshi02/ | Noida, India

Professional Summary

Hands-on **Technical Lead & Associate Project Manager** with **6+ years of experience** architecting high-throughput distributed systems and driving modern engineering delivery. AI and Data Science enthusiast, actively integrating **Generative AI workflows, LLM-assisted development, and automated engineering pipelines** to accelerate SDLC velocity and optimize system architectures. Proven expertise in **Java (17/21), Spring Boot, Reactive Microservices (WebFlux), and Distributed SQL/NoSQL**, combined with Agile sprint governance and technical leadership across 12+ engineers to deliver resilient enterprise solutions sustaining 99.95% uptime.

Technical & Leadership Skills

Architecture & Backend: Java (8/17/21, Multithreading, Streams), Spring Boot 3.x, Spring WebFlux, Microservices, REST APIs, Hibernate/JPA, System Design (HLD/LLD), Design Patterns (Saga, Circuit Breaker), Domain-Driven Design (DDD)
AI & Modern Engineering: Generative AI Workflows, LLM-Assisted SDLC, Prompt Engineering, Python, Machine Learning Fundamentals
Databases & Messaging: Apache Cassandra (NoSQL), PostgreSQL, MySQL, Redis (Distributed Caching), Apache Kafka
Delivery & Governance: Technical Project Management, Agile/Scrum, Sprint Planning, WBS, Jira, Confluence, Risk Mitigation
Cloud, DevOps & Quality: Red Hat OpenShift (OCP), Docker, Kubernetes, CI/CD, Azure, JUnit, Mockito, SonarQube

Work Experience

EY (Ernst & Young) Noida, India
Total Tenure: Feb 2025 – Present

Associate Project Manager (Technical Delivery & Architecture) *Oct 2026 – Present*

- **Architecture & Delivery Ownership:** Steer technical architecture, HLD/LLD, and sprint execution for enterprise microservices across a cross-functional team of 12+ developers, QA, and DevOps engineers, retaining hands-on ownership of core modules.
- **Agile Governance & AI Adoption:** Facilitate sprint planning and capacity estimation in Jira; introduced AI-assisted coding and testing workflows that increased velocity predictability by **25%** and reduced sprint spillover by **30%**.
- **Stakeholder Alignment:** Function as primary technical liaison between executive leadership, product managers, and developers, translating complex business roadmaps into clear architectural epics and sprint deliverables.

Senior Technical Lead *Feb 2025 – Sept 2026*

- **Enterprise Data Fabric Architecture:** Architected scalable data ingestion and delivery engines within an enterprise Data Fabric platform, processing high-volume multi-source feeds for global enterprise clients while sustaining **99.95% platform availability**.
- **Full-Lifecycle APIs & Processing:** Engineered robust RESTful microservices powering the centralized web portal, automating end-to-end data lifecycles including ingestion, cleansing, transformation, and delivery.
- **Observability & Delivery Reliability:** Implemented real-time pipeline tracking and asynchronous notification services to guarantee data integrity; automated CI/CD container deployments via **Azure Devops (ADO)**.

IBM Mysuru, India
Application Developer (Senior Java Backend Developer) *July 2023 – Jan 2025*

- **Leading Public Sector Retail Bank:** Architected non-blocking reactive APIs via **Java Reactive Programming (Spring WebFlux)** for digital account opening; scaled Cassandra data layer to sustain **15,000+ peak concurrent users** with sub-200ms latency.
- **Global Automotive OEM:** Developed core subscription lifecycle microservices (provisioning, tier upgrades, renewals) using **Java, Spring Boot, and PostgreSQL**; optimized relational indexing and pooling, boosting query throughput by **35%**.

Cognizant Technology Solutions Gurgaon, India
Associate (Software Engineer) *Aug 2020 – June 2023*

- **Tier-1 North American Wealth Management Client:** Built high-throughput Java/Spring Boot batch services reconciling broker-dealer data; engineered a modular **Interest Calculator Engine** processing **500,000+ records daily** with 100% precision.
- **Quality Engineering:** Developed automated test suites via **JUnit and Mockito**, lifting test coverage from 60% to **88%**; delivered features across 15+ Agile sprint cycles with zero critical production escapes.

Education

Indian Institute of Technology (IIT) Jodhpur Jodhpur, India
Executive Master of Technology (M.Tech) in Data Science – CGPA: 7.4 / 10 *Aug 2021 – July 2023*

Graphic Era Hill University Bhimtal, India
Bachelor of Technology (B.Tech) in Computer Science & Engineering – CGPA: 8.75 / 10 *Aug 2016 – July 2020*

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900), Azure Data (DP-900), Azure AI (AI-900) | **Cloud & AI:** Google Cloud Digital Leader, IBM Watsonx GenAI
